who is an experienced and skillful Dentist, I am now prepared to manufacture and insert Artificial Teeth by the following methods, namely: GOLD, SILVER, RUBBER, AMBER PORCELAIN BASE, GUM ENAMEL, RUBBER ATTACHMENT, CHROLITE, CONTINUOUS GUM, MICA and ENAMELED PLATE WORK. Some kinds of this work is recommended above all others, and needs but an inspection to prove its superiority for cleanliness, durability and life-like appearance to any artificial teeth in use.
Filling and cleaning teeth, and all operations in *Dental Surgery*, either *mechanical, operative or surgical*, performed in the most thorough and highly finished manner. None but the most permanent and polished operations performed, and no inducements to patients by low priced or roughly finished operations. I use *no cement* in filling teeth, and seek no price to make no competition with *cheap Dentists*, and desire the patronage of such persons only as wish their operations performed in the most *perfect and skillful manner*.
Operations that fail to give satisfaction need not be taken or paid for. Office hours from 9 A. M. to 4 P. M. Indigent persons who are unable to pay full professional charges will call before and after office hours.

OFFICIAL PAPER OF THE CITY

No flag but the Old Flag—the Red White and Blue
With the stars of a Union unbroken and true!
Arise and defend it ye sons of the brave
Whose blood bought the banner your valor must save

MONDAY MORNING, MARCH 9 1863

## The Municipal Election

The rebel organ of Saturday evening earnestly demands an immediate effective organization for the purpose of filling every city with a true blue Democrat, dyed in the wool, so that the voice of Portland may thus express its thorough condemnation of the Administration and all its measures for the suppression of the rebellion. Now, we frankly say that in cities and towns like this we prefer that party lines should not be drawn with reference to matters that concern our police, our fire department and our local affairs We think good citizens can be found among neighbors who live and do business together, and have common interests,—qualified in all respects to perform the duties of city officers, without quarreling about politics, and we would cheerfully unite in such an arrangement for our mutual peace and welfare But when these red-mouthed rebels,—whose hearts are full of hate and scorn for the free institutions, which have made our nation the glory and the refuge of humanity; whose rage is kindled to a white heat when they hear of a Union victory—when these sympathizers with secession talk of binding this loyal city in the fetters of rebellion, and, under the name of Democracy, offering it as a sacrifice to the infernal spirit which animates them, it is time to shake off all connection with them, when it may tend to such a shameful result,—it is time for loyal men to take *their* position, by organization if need be, and firmly maintain it against all the enemies of their country. The success of these foes to civil liberty would be hailed as the triumph of disunion and rebellion, and though in itself, and in comparison with the great issues now on trial, of trifling importance, yet its significance would be magnified so much that it would be supposed abroad that we had exchanged the old flag—the glorious stripes and stars—for the miserable ensign of mad and ungodly secession. To save our fame from such infamy, our honor from such disgrace, it is necessary, if this question is forced upon us by the adherents of Jeff. Davis, to meet it boldly—to meet it and drive back to their holes and their dens the shameless traitors who would rejoice in the destruction of the Union, and hail the capture of Washington and the defeat of the Government as blessings too great even for their unholy gratitude. Their avowed purpose must be accepted as a warning. We have now full notice of their object. instead of putting the best foot foremost, they dare to place the cloven hoof in advance, only covering it with the shadow of a dead Democracy, which poorly conceals their real aim and wicked intentions They cannot succeed without the support of loyal men, whom they will seek to deceive under the old song that for all honest ears has lost its music. They cannot succeed, if loyal men are alive to their duty, which ought to inspire them at all times, to turn aside from party when patriotism summons them in any way or manner to stand by their country Let us not, then, citizens of Portland, be misled by these party delusions, let not the old watchwords, which have given place to nobler and higher calls, disturb us in our common efforts for our common good. We do not ask for your support, as an endorsement of the President or his measures, we confess that there have been mistakes and errors, great and mischievous, and we deplore them as much as any, but we ask you not to desert the country, because you cannot approve all Mr Lincoln's acts; we ask you not to follow these pestilent and seditious fellows, who, to break down and condemn the Administration, are ready to destroy the Union, and throw its institutions and blessings under the heels of the mad and lawless beast which they call Democracy

WORKING OF THE STEAM FIRE ENGINE AND PAID FIRE DEPARTMENT IN BALTIMORE.—The introduction of steam fire engines into the Eastern cities is so recent that it is not easy to find published statistics showing the working of the system. All the newspaper notices we have seen, however, are unqualified in endorsing the change from the volunteer to the paid fire department, as an immense advantage in large cities. The Baltimore correspondent of the New York *Evening Post*, writing on the 9th of January last, gives the following brief showing of the benefits conferred upon that city by steam fire engines

"Since the substitution of steam fire engines in this city, the losses by fire have been reduced almost to *nil*. Last year the insurance ran up to $120,000,000, while the absolute losses by fire do not exceed $15,000, and this in a city of at least 220,000, inhabitants!

Another evidence that Baltimore is not an exception, is the fact that all the insurance agents urge the purchase of the steam fire engines as of the utmost importance in saving the destruction of property The insurance tax of San Francisco is now very heavy upon property holders—owners of wooden buildings paying more towards supporting insurance companies than for all other taxes combined

The above from the *Bulletin* may not be without value to our own citizens, and we commend the subject to their consideration Experience has proved that in compact towns steam fire engines are not only more useful, but also more economical than those worked by hand. Perhaps the time has not yet arrived when we require them, but if not, we are sure it is not so far off as is generally imagined.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

### LATEST FROM THE EAST.

**News of February 28th.**

CAIRO, Feb 28.—Full dispatches regarding the expedition of the ram *Queen of the West* to Red river have been received The crew consisted mostly of negroes Her artillerists were twenty experienced men detailed from the 18th Illinois Infantry On Thursday morning before the capture the ram ran down Atchafalaya river a few miles, captured and destroyed a rebel Quartermaster's train consisting of 17 wagons and on returning was fired on by guerrillas at Summersport The next morning Capt Elliot landed and burned all the buildings in the vicinity in retaliation—destroying half a million dollars worth of property On Saturday she captured the rebel steamer *Era No 5*, with a large cargo of corn. At dark the same day she came within range of Fort Taylor, only 100 yards distant The ram engaged the Fort and the third shot from the rebels struck her crushing through the deck Her men fired once after this and then deserted the guns in this emergency Col Elliot ordered the pilot to back out and in attempting to do so ran aground The next shot from the rebel Fort broke the lever of her engine and a succeeding one cut her steam pipes in two, completely disabling her Twenty six of the fifty one white men aboard escaped The steamer *De Soto*, which accompanied her as a transport, was blown up to prevent her falling into the hands of the enemy

NEW YORK, Feb 28.—Sterling Exchange 190 Gold closed steady at 71¼ Government Stocks still lower Dates from Liverpool to the 14th are received The London *Times* ridicules the Lord Mayor for his bringing in to prominence the rebel Mason and shows the affair was without significance It says Mr Mason's remarks about the early recognition go far ahead of the facts, and that when the Federals find themselves obliged to leave the Confederates in the quiet possession of their States then will be time to discuss the question of recognition, and that Mason has received no assurance or encouragement except from irresponsible persons The steamer *Gibraltar* had arrived at Liverpool.

CHARLESTON, Feb 28.—Late Richmond papers give dispatches from Jackson, Miss, dated Feb. 20, which say as a train from Meridian came to Chunky bridge last night it gave way and precipitated the engine and 4 cars into the river. From 50 to 100 passengers were drowned The bridge cannot be repaired till the water falls.

LOUISVILLE, Feb. 28.—At noon yesterday twenty freight cars loaded with persons going to Nashville were seized and burned by sixty armed guerillas twelve miles below Bowling Green The rebels then fired up the locomotive and sent it ahead at full speed, supposing that it would come in contact with the passenger train from Nashville Luckily, however, late rains had injured the bridge over Drake Creek so that the train and passengers returned to Nashville, and the locomotive having exhausted itself stopped on the track

MURFREESBORO, Tenn, Feb 27.—There were several rain storms the past week which not only put the roads in a worse condition than before but washed away one day's rail road communication between here and Nashville. It will take several days to restore the communication Nothing yet has transpired that looks like a forward movement The amount of sickness is not very considerable, the prevalent diseases being those induced by the rainy weather of this region. Reports received from the enemy indicate their intention to contest the further advance of this army Van Dorn's forces, from North western Missouri, now occupy Columbus, while another column sends out reconnoissances almost daily on our left The arrival of contrabands in our camp are less frequent than formerly—of course large numbers are at work on the fortifications at Tullahoma and Chattanooga

WASHINGTON, Feb 28.—As the session approaches a close the passage of a Missouri emancipation bill in any shape becomes exceedingly doubtful.

NEW YORK, Feb 28.—Gold this morning is quoted at 72 cents premium The *Herald* says that rumors were rife at Washington yesterday that Hunter will be relieved of the command of the Department of the South and Burnside's name was spoken of in connection with the succession It is also said that certain parties are preparing charges against McClellan with a view to a Court Martial

HEADQUARTERS ARMY OF POTOMAC Feb 27.—On Wednesday night a raid was made on our lines by two rebel cavalry Brigades of Lee and Hampton's forces They crossed the Rappahannock at Kelsey's Ford and succeeded by a strong attack in breaking our thin lines of cavalry outposts at one or two points and captured a few of our men Our cavalry outposts and reserves were brought into line immediately and re-established A force was sent in pursuit Our capture included two or three officers The rebels having failed in accomplishing their object returned in great haste across the Rappahannock—felling trees across the road and placing other obstructions in the way of the pursuing force The cavalry sent out in pursuit has not yet returned The rebel cavalry were commanded by Lee in person

CINCINNATI, Feb 27.—A special dispatch to the *Times*, from Lexington, Ky, says that the excitement at Richmond, Ky, has subsided. The rumor was almost wholly without foundation The fight of Wednesday was more successful than was at first supposed—Some 200 prisoners were taken Gen Carter left yesterday, with a considerable force, for some point unknown

SAN FRANCISCO, March 1st.—John Agnew, owner of the horse *Commodore*, obtained a verdict yesterday, of 3,000 dollars for loss of horse on steamer *Contra Costa* when she bursted her boiler some years ago *Sierra Nevada* arrived from the North this morning She brings 3 000 boxes of apples and $50,000 in treasure Steamer *Golden Age* arrived at 6 o'clock last night with a large number of passengers

SAN FRANCISCO, March 2.—The steamer *Golden Age* which was detained until this afternoon in consequence of her late arrival on her up trip took away about 300 passengers The rates of fare by mail line are 1st cabin, $180, 2d cabin, $150 steerage $80. The People's Line is underselling the old line—Stocks in the *Wide West* Washoe silver mine had gone up to $520 Weather sultry. Arrived, ship *Lookout*, 111 days from New York Telegram from Weaverville to-day states that the tug *Merrimac* had drifted into Humboldt Bay and been secured, apparently little injured None of her crew or passengers have been saved as far as yet known The cargo of ship *Lookout* consists in part of 220 firkins butter, 65 cases bacon, 661 boxes candles 100 bbls corn meal 500 boxes castile soap 900 bbls alcohol, 600 cases and 200 bbls oil

The *Golden Age* took away 85 cabin passengers and $871,204 in treasure, of which $711,000 goes to England

Steamer *Robert Lowe* sailed for China on Saturday with $501,220 in specie

Steamer *Golden Age* brought 152 packages of mail matter and five boxes of treasure from wreck of *Golden Gate*

YREKA, March 2.—Overland telegraph is down east of Omaha.

## The Late Indian Battle.

General Wright has issued the following order making honorable mention of the conduct of the volunteers in their late battle with Indians on the Plains

HEADQUARTERS DEPT OF THE PACIFIC
SAN FRANCISCO, Feb 19, 1863

*General Order No 6*

The General commanding the Department has the gratification of announcing a signal victory gained by the California Volunteers under the command of Col P Edward Connor, on the 29th of January, 1863 over a large body of hostile Indians, strongly posted on Bear river, Washington Territory, 150 miles north of Salt Lake City

The force engaged consisted of Companies A H K and M Second Cavalry under the immediate command of Major Edward McGarry, Second Cavalry and Company K Third Infantry The battle lasted four hours and its severity is well attested by the loss of the combatants—224 Indians being left on the field, while the loss of the troops was fifteen men killed, and four officers and forty nine men wounded, out of a force not exceeding 400 engaged One officer (Lieut Chase 2d Cavalry) and five enlisted men have since died of their wounds

Col Connor awards the highest praise to Major McGarry, Second Cavalry, and Major Gallagher and Surgeon Reid, Third Infantry For their coolness, gallantry and skill and bears testimony to the perseverance and gallantry of Company officers through out the action, and closes his report by saying "Of the good conduct and bravery of both officers and men, California has reason to be proud"

By order of Brigadier Gen Wright
R C DRUM A A G

The above mentioned battle was fought on the soil of Washington Territory, a short distance North of the Southern boundary line Will not the patriotic citizens of Oregon and Washington Territory emulate the deeds of the California Volunteers? California has had her Volunteers at every military post in this country, from Fort Yamhill to Fort Walla Walla and Colville and from Fort Umpqua to Puget Sound Eight Tenths of Col Steinberger's Volunteers were raised in California Oregon has contributed seven Companies and California seven *Regiments* for the war California has her Volunteers in New Mexico, Arizona, Utah and Washington Territories and Oregon, and her Volunteers have thus achieved a signal victory over the Indians on our own soil Will we share in another campaign against the same Indians nearer to our own settlements? This is the question put to the gallant spirits of Oregon.

THE MILLIONAIRE STEWART.—"Burleigh," the New York correspondent of the Boston *Journal*, states that A T Stewart, of New York, has refused to sell cotton goods at any price, and that he has been engaged in buying up all the goods he can purchase, empty stores have been taken, warehouses rented and filled to the rafters with goods and this done, that he has closed sales and waits for coming events It is well known (adds the writer) that Stewart's connection with the Government is such that he has early information of changes to take place, of movements to be made, and the signs of the times are within his vision He has the monopoly of one kind of goods, for which the sale has been great, and the past year has probably been to him the most successful year he has ever experienced Over fifteen million dollars worth of goods he has sold within the year 1862; and when he holds up and refuses to sell a class of goods, men begin to open their eyes If we have a battle and do not win, cotton goods will run up like gold

NEW POSTAL AGENT.—The S F *Herald* says it is stated that Charles Watrous has resigned the postal agency, and that Henry Baker, late of the Mint, has been appointed as his successor.

# The Daily Oregonian.

## CITY.

THE MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

☞ Tender Notes this Day—52 cents.

LECTURE.—The lecture at the Academy on Friday evening, by Hon. J. E Wyche, of Vancouver, drew a very large audience, and most deservedly so for, to do the speaker justice, he treated the subject in a manner highly flattering to himself and instructing and pleasing to his hearers No Union man, we rest assured, left the place without feeling an additional impulse to persist to the last in following the fortunes of the noble cause he has hitherto adhered to.

The attention of the reader is called to the communication of our occasional correspondent on the Boise River mines, to be found on the fourth page. It contains some hints well worthy the consideration of those intending to try their fortunes in that quarter.

FEMALE FRIENDS OF THE COMMERCIAL.—The Commercial's chivalric defence of Southern ladies is creditable to its gallantry, but it is quite out of place in reply to the article we quote without comment from the Washington *Star*. That did not refer to such persons but only to a gang of *loose women* whose presence has cursed Washington, and who have gone, of their own motion to do the same mischief at Richmond. A large number of ladies went at the same time, against whose pure fame the *Star* made no whisper. The *Commercial* however wanted a chance to speak a good word for its friends of the former class, and having imported it, we hope it feels better.

A JUDGE ON THE TREADMILL.—A story is told of Baron P——, who, when once visiting a penal institution, inspected the *mill* with the rest, and being practically disposed, the learned judge philanthropically trusted himself upon its treads, desiring the warder to set it in motion. The machine was accordingly adjusted, and the ship began to lift his feet alternately. In a few minutes, however, he had quite enough of it, and called to be released, but this was not so easy. "Please, my lord," said the man, "you can't get off, it's set for twenty minutes, that's the shortest time we can make it go." So, *nolens volens*, the Judge was in durance like Signor Riccabocca in the stocks, except that he was obliged to keep "moving on" until his term expired.

NOBLE BURNSIDE.—The true romance of this war will contain no purer picture of the chivalry than that which shines in the knightly act of Gen. Burnside, bending before his Commander-in-Chief to request that he may still be employed in his country's service, or resign his sword and military emoluments.—He will not remain on the retired list under pay. What a lofty rebuke to the full list of chieftains best pleased to draw their stipends, far from the field, and to air their lace and buttons in civic circles not always loyal. The country will appreciate the true nobleness of Burnside.—*Chicago Tribune.*

PRESENT OF SOME RELIEF.—The Secretary of the Interior has recently sent to Congress a letter accompanying a communication from the Commissioner of Indian Affairs, asking for the passage of a law to divert from certain unexpended appropriations, amounting to $281,000, funds sufficient to pay the indebtedness incurred under other heads of appropriations now exhausted and due to the Oregon during the past three years. It is represented that great inconvenience and suffering have resulted from this long credit of the Government.

☞ Board of Delegates.—Regular Meeting of Board at 7½ o'clock, P. M., this (Monday) evening

T B TARVEY, Sec'y

☞ An Invaluable Expectorant.—Dr HALL'S BALSAM has received more weighty indorsements than any other Cough medicine before the public, comprising the names of Physicians and Clergymen, attesting to its superiority for the cure of CONSUMPTION in its various stages.

☞ THE FIRE-PROOF STONE WAREHOUSE, opposite the Custom House, is the only building, not made of wood, on the Dalles, where goods are taken on STORAGE. All other houses that take goods on storage are *wooden* buildings and in exposed parts of the town liable to the risk of fire. The subscriber assures his patrons that his charges are but $1'50 per ton per month storage and although storage in wooden buildings is $1 00 per ton yet the public cannot fail to perceive the advantages the subscriber possesses over other warehouses of this place

DALLES, Jan 20, 1863 1m RASEY BUEN

☞ Coughs.—The sudden changes of our climate are productive of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "BROWN'S Bronchial Troches," or Lozenges for the Cough, or Irritation of the Throat be ever so slight as by this means a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them useful in clearing and strengthening the voice See advertisement dec18d&w3m

White's Fever and Ague Drops—For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY

This medicine is recommended in private practice for many years with great success Indeed in no instance has it failed to effect a speedy cure, in Ague especially one bottle having been found sufficient in most cases and in none as many than two bottles required

A great number of testimonials could be given to verify these statements, but the proprietor prefers relying upon the merits of the medicine alone A cure is guaranteed in nine cases out of ten

## DOCTOR VAN ZANDT,

CONSULTING PHYSICIAN & SURGEON

**Office, Corner of Washington and Sansome streets, San Francisco.**

*The GREATEST SUCCESS of the CENTURY as the TRUE PRACTICAL MEDICINE*

*The Wonderful Problem of Material Nature, Electricity made subservient for the Cure of all Nervous and Chronic Diseases*

THAT THIS PRINCIPLE IS SUCCESSFULLY APPLIED to the cure of disease is a fact proven by the greatest possible number of living witnesses in all parts of the civilized world It is a part of that great principle of the Electric Life which pervades all nature and is the only means by which the earth itself can be preserved from destruction by decay and death Dr Van Zandt has given much study and research to this subject and has succeeded in developing a power which when properly applied will restore to perfect health the most shattered system—all the vital forces of the body being galvanically electrified when it will produce a current—is not the current of life, and is there a power if even going on in the system? This power is correctly and thoroughly under the control of the Doctor, and is the only true remedy for all nervous and chronic diseases

**Too Much Cannot be Said**

in the praise of this invaluable discovery which in truth there is an exact equilibrium of the Electric Fluid and all the vital forces of the body in a perfect condition of health the Creator has ordained that the body be galvanically electrified when it will produce a current—is not the current of life, and is there a power if even going on in the system? This power is correctly and thoroughly under the control of the Doctor, and is the only true remedy for all nervous and chronic diseases

**Awaken the Magnetic Life within us**

The whole human system Believing as I do that health is the great magnetic or electrical interests of the earth with its influence upon our bodies in health and disease I am led to take advantage of this Fact in order to awaken attention to the subject that good may result all

**No Compromise with Disease.**

Give it only strength and nature will release herself purify the life blood, render the stomach liver heart kidneys and all the internal functions active by ELECTRICAL excitation and once the nerves the painful the nerves the inspirited the whole machine the dyspeptic and the invalid restored under its benign influence

**To the Ladies of California.**

Dr Van Zandt's success with complaints of women both in family and office practice is owing to his correct views of the origin of all the complaints Ladies can consult him with entire confidence as he is a regular graduate in human life—a proving himself the only member of the legitimate profession in California who is really successful in certain diseases with which are the peculiar province of the sex His high appreciation of their delicately attuned nervous organism together with their great sympathetic influence will assure them confidence and so long

**Relief to the Afflicted.**

as the afflicted can doubt his ability to assuage those ailments complained of they had better not patiently and so long as the afflicted suffer under their afflictions our human sympathies will prompt us to assure them relief The electric fluid as it strikes energizes restores the wasted energies of the body, awakens the melancholic and despondings arrest those pains which cause so much anxiety cure those protracted maladies which have so long

**Baffled the Skill of Physicians.**

Develope appetite life and animation dispel nervous headache sinking at the stomach wandering pains, wasting away of strength extreme debility and listlessness hideous cough sleeplessness unpleasant dreams and that general depression Life's up hill work, which go to render her life a misery and death a boon Dr Van Zandt, with his new method of exciting the Electro-Galvanic current together with his remedial measures which are adapted to the necessities of California will assure you of a complete and rapid recovery of all bodily and mental infirmities and will restore you to usefulness and spare you a blessing to your family and society

**All the world over**

wherever disease exists whether special to the soil and climate or common to all regions—epidemic or casual acute or chronic contagious or non-contagious—it is as necessary to resort to the ELECTRO-GALVANIC equilibrium especially in California, as it is to give food to the starving This statement is based upon a series of facts extending through many years and verified by hundreds of patients so that no principle of science a result of experience no result of any well known remedy rests upon more sure and unassailable foundations, than those which underlie the world wide renowned Institution of Electricity for the cure of all nervous states of the body faulty digestion mental and physical debility or prostration consumption, asthma wandering pains of a rheumatic, gouty or neuralgic character and all forms of disease the result of scrofula or cachectic habit of body

**None Need Despair of Relief.**

If you have disease which will not heal—pains that can not be removed—melancholy which you cannot shake off—tides of power which you cannot regain—depression of spirits which weigh you down—wakefulness that knows no sleeping—business that languishes for want of energy—a void which no society can fill—suspicion which no assurance can allay—Go to Dr Van Zandt, for his great success and the safety with which he administers his new method of electrical excitation together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities, within the scope of science and time to remove

**The Eye and Ear Diseases.**

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these affections as especial study, and that he is the only Surgeon in our State who has a diploma for that branch of practice Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery—as amaurosis squinting cataract floating specks before the vision, twitching of the eyelids, narrow deafness, roaring and buzzing noises in the ears, giddiness etc. All operations successfully done on those delicate organs of sense

## PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oils and herbs It is perfectly safe for the most delicate to use, and I can most sincerely say that I have never known any, however delicate, to be injured by it in the least I will continue to ask the afflicted who have not used it, to try it for the following diseases If they are not satisfied with its healing properties the money will be cheerfully returned by the agent where the medicine is for sale

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day It will relieve the pain, and take out all the poison, and heal the wound in a short time

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Canker or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day

If you have the Diarrhœa, or a relaxed state of the bowels, take a dose of Pain Panacea and they will soon be restored If you have a painful swelling, bathe the parts freely and you will soon relieve pain, and the swelling will be reduced

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time, it will stop the pain instantly

If you have a pain in the Breast, Side Back or Kidneys, bathe the parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea

If you have a wound, cut or galls upon your horse, apply the Pain Panacea, it will take out all the inflammation and heal the sore in a short time

## Letter from Boise.

[FROM AN OCCASIONAL CORRESPONDENT.]

PLACERVILLE, BOISE MINES, Jan. 29, '63.

Since my last communication from this region, nothing of great importance has transpired in the way of news. It has been a continued series of storms, more or less, during the present month, causing a cessation in the business of "prospecting," unless it may be in the immediate vicinity of camp. The snow is from three to five feet deep here at present, and the weather is so cold that but little, if any, work in the way of rocking is going on; what little is done, is done by those who are compelled to raise money for provisions. Hot water is necessary to keep the rockers from freezing. No new strikes outside of this basin are reported, except small diggings found at the head waters of Payette river. This section of country, from appearances, bids fair to rival our diggings in the basin, when the weather is such as to permit of a thorough prospecting. Since my last, those having claims on the several creeks in this district have been busily engaged in prospecting, and the results that I have heard of, though not very large, are still large enough to warrant working, with promise of a fair remuneration.

Provisions remain about stationary in price, as the supply so far has been equal to the demand. Pack trains and teams are continually arriving at the foot of the mountain, from which point the goods are sleded in by men. This is a laborious and slow undertaking, but, so far as I can see, it has not had the effect of raising the price of anything. In the Spring I predict a scarcity of provisions and famine prices, as the roads leading to the place are through wet bottoms in many places, and over rivers which it will be almost impossible to cross, unless some enterprising individuals establish ferries, the lumber for which will have to be hauled a long distance. The rivers in this country, for the most part, are almost void of timber, and any fit for bridging or ferry purposes must be sought for in the mountains.

A fatal shooting affray took place in this town on Sunday morning last, which resulted in the shooting of Tom Burns, late of Florence, who survived his wound only about fifty hours. He was shot through the right lung, the ball entering under the shoulder blade and coming out under the right nipple. While I am writing, the two men, Sullivan and Boyle, charged with the shooting, are undergoing an examination before a Justice "elected for the occasion." They will undoubtedly be acquitted, as I understand Burns was the aggressor, and the first to appeal to the arbitrament of pistols. With the exception of this case, our town has been unusually quiet, much more so than might be expected from such a heterogeneous and cosmopolitan population. In this place we are entirely behind the age, and, although we get papers occasionally, they are so old it is a task to read them. The Southern cause has many advocates in this region, and the reports of battles that reach us, no one knows how, are really laughable when the true version arrives. The battle of Fredericksburg was a sad affair, although I see some of the papers laud Gen. Burnside for his exhibition of generalship on that occasion. It is a rather ominous result from a general whose activity and "go-aheadativeness," made him the successor of the too careful McClellan.

The rush to this place is already commencing. Men with packs on their backs are arriving every day. This is a good country to prospect in, and those who come up prepared for this may rest assured of success. The field is large and inviting. Those who come up expecting to "arrive at night and go to work in the morning in a good claim" will be sadly disappointed. Some of those who winter here have not yet found that *desideratum*. Prospecting is the laborious, and working a *good* claim when found the *poetical* side of a miner's life. You all hear of the rich claims and strikes, but seldom, if ever, of the hundreds and thousands who are put to their wit's ends to make what miners term grub. We had an express up here, and it is to be hoped Wells, Fargo & Co. will establish an office here as early in the Spring as practicable. They will find letter carrying as profitable as on any other of their northern routes, and will find more dust forwarded by them than from any other camp north of California.

Speculators can here find a good chance for profitable investments. There are miles of country which will pay good wages, if water can be procured. I consider ditch property in this county will be the best investment possible for capitalists.

The weather is extremely cold to-night, and indications are that we will have a severe cold snap for a few days. I shall write again when opportunity offers. CRAYON.

A NEW PEACE PROPOSITION.—Orpheus C. Kerr writes from Washington the following account of another peace proposition:

The Confederacy hastily put on a pair of white cotton gloves, and says he:

"Am I addressing the Democratic Organization?"

"You address the large Kentucky branch," says the Conservative chap, pulling out his ruffles.

"Then," says the Confederacy, "I am prepared to make an indirect proposition for peace. My name is Mr. Lamb, by which title the Democratic Organization has always known the injured Confederacy, and I propose the following terms: Hostilities shall at once cease, and the two armies be consolidated under the title of the Confederate State Forces. The war debts of the North and South shall be so united that the North may be able to pay them without confusion. An election for a new President shall at once be held, everybody voting sure those who have shown animosity to the sunny South. France shall be driven out of Mexico by the consolidated armies, the expense being so managed that the North may pay it without further trouble. Upon these terms, the Confederacy will become peaceful fellow-men."

"Hem!" says the Kentucky chap, "What you ask is perfectly reasonable. I will consider the matter after the manner of a dispassionate Democrat, and return you my answer in a few days."

Here I hastily stepped up, and says I, "But are you not going to consult the President at all about it, my Jupiter Tonans?"

"The President? the President?" says the Conservative Kentucky chap, with a vague look. "Hem!" says he, "I really forgot all about the President!"

The Democratic Organization, my boy, in its zeal to benefit its distracted country, is occasionally like that eminent fire company in the Sixth Ward, which nobly usurped with itsHose the terrible business of putting out a large conflagration, and never remembered, until its beautiful machine was all in position, that another company of fellow-firemen had exclusive possession of all the waterworks.

BISHOP SIMPSON.—Bishop Simpson preached a sermon on missions, lately, at Foundry Chapel in Washington city. President Lincoln, Secretary Stanton and other Government dignitaries were present. The contribution amounted to $912. Of this sum $150 was given to make President Lincoln a life member of the Parent Missionary Society.

If you are asked to do a right thing, answer by doing it. 'Tis a short answer, but it does not give offense.

## Proclamation by the Governor.

EXECUTIVE OFFICE, PORTLAND, OREGON, January 6, 1863.

By the President of the United States, through Brigadier General George Wright, commanding the Department of the Pacific, and Brigadier General Benjamin Alvord, commanding the District of Oregon, I have been requested to raise six additional companies, required to complete the 1st Regiment of Cavalry, Oregon Volunteers. They will be needed the coming Spring on the frontiers of this State and Washington Territory, and for an expedition against the Snake Indians, who have so long been mercilessly engaged in robbing emigrants and murdering our fellow-citizens. I cannot doubt that the citizens of Oregon, who have always promptly responded to any demand for their military services, will in like manner respond to this call; thereby showing their loyalty to the Government, and aiding in chastising marauding bands of Indians which infest our frontiers.

The enlisted men, when mounted, will be supplied with horses by the United States, it being understood that they will be mounted or not, as shall be deemed advisable by the Government.

Propositions to raise a whole company, which will furnish their own horses and horse equipments, may be entertained. The men are in such cases entitled to forty cents a day for the use and risk of their horses and horse equipments.

Each company will consist of one hundred enlisted men, and when mustered into the service of the United States to serve for three years, unless sooner discharged.

Recruiting offices will be immediately opened at Portland, Dalles City, and perhaps at other places. By the Governor,

ADDISON C. GIBBS.

CYRUS A. REED, Adjutant General.
